### SKILLS

React.js, Next.js, TypeScript,  
JavaScript, Redux, HTML/CSS,  
jQuery, Tailwind CSS,  
Node.js, Spring Boot Java,  
MySQL, Firebase, Git

### EDUCATION

**Christ University,**  
**School of Engineering**  
B. TECH in Computer Science  
and Engineering  
**GPA: 3.64 / 4**

### PROJECTS

#### **eaf1 (2024):**

A F1 guide showcasing car specs, image galleries, & in-depth parts explanation.  
(Next.js, Tailwind)

#### **Tutorly (2022):**

A platform linking students with alumni for industry insights. (React.js, Bootstrap)

#### **Airport Management (2021):**

A tool for staff to manage flights and bookings in real-time. (JavaScript, MongoDB)

#### **Banking Service Flow (2021):**

A site for withdrawals, deposits, and real-time TXN tracking. (PHP, JS, MySQL)

### PROFILE

Full Stack Developer with 2.3+ years of experience in creating engaging user-facing features and optimizing applications for enhanced performance. Expertise in React, JavaScript, and Redux, with experience in cloud platforms like Azure. Well-versed in the Agile software development lifecycle, consistently delivering high-quality solutions with attention to design. Skilled in collaborating with cross-functional teams, translating complex business requirements into clear project specifications, and leading development efforts to ensure timely, scalable, and client-aligned outcomes

### EXPERIENCE

**Comviva Technologies Ltd. | Product Development Engineer**  
**Bangalore | Apr 2023 – Sep 2024**

#### **Payment Portal for Merchant (MERN Stack):**

- Developed a responsive digital payment platform enabling transactions, bill payments, and recharges across devices.
- Acted as the SPOC, collaborating with Ericsson, Comviva, and MTN to align development and backend integration.
- Designed reusable components, enhanced scalability by 30% using Redux Toolkit, & reduced UI/UX inconsistencies by 50%.
- Improved security through route guards, optimized performance with 20% faster load times, and ensured API integration with reduced response errors. Earned 2 ACE cards for my efforts and commitment.
- Tech Stack:** React.js, JavaScript, TypeScript, Redux, HTML, Tailwind, Storybook, Node.js, Express, MySQL, Git, Firebase.

**Comviva Technologies Ltd. | Product Development Engineer**  
**Gurgaon | Jun 2022 – Apr 2023**

#### **Server Management Portal (React.Js & Spring Boot):**

- Built a portal to monitor server telemetry and manage configurations. Migrated from Ext JS to React.js, enhancing functionality and reducing redundancy by 30%.
- Implemented dynamic modifications with Redux Toolkit, and integrated Spring Boot microservices for seamless front-end and back-end interaction.
- Tech Stack:** React.js, JavaScript, Bootstrap, Redux, HTML, Springboot, Java, MySQL, Git.
